

Standard Warranty

Fluidic Systems warrants all equipment manufactured by Fluidic Systems to be free from defects in materials and workmanship. Fluidic Systems will, for a period of one (1) year from the shipment date to the customer, repair or replace any part of the equipment determined by Fluidic Systems to be defective. This warranty extends to the original purchaser or, in the case of transfer of new equipment title through an authorized Fluidic Systems Distributor, to the intended end-user.

This warranty is conditioned upon the prepaid return of the equipment to the factory with prior written consent. If factory inspection of the equipment verifies the claimed defect, Fluidic Systems will repair or replace any defective parts at no charge and return the equipment to the original purchaser prepaid. If factory inspection does not reveal any defect in material or workmanship, repairs may be made at a reasonable charge.

This warranty does not cover, and Fluidic Systems shall not be liable for, items that in the reasonable judgment of Fluidic Systems malfunction as a result of ordinary wear and tear, misuse, corrosion, abrasion, tampering, damages caused by the result of improper maintenance, or improper installation including but not limited to connection to an unprotected or unconditioned power source.

Fluidic Systems makes no warranty, and disclaims all implied warranties in connection with accessories, equipment, materials, or components sold but not manufactured by Fluidic Systems. These items shall be subject to that manufacturer's warranty policy. Fluidic Systems will provide purchaser with reasonable assistance in making any claim for breach of these warranties.

THIS WARRANTY IS EXCLUSIVE, AND IS IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTY OF MERCHANTABILITY OR WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL FLUIDIC SYSTEMS BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES.

If customer submits a claim for breach of warranty within one (1) year from the shipment date to the customer, it is understood that the customer's sole and exclusive remedy shall be the repair or replacement of the defective items. It is further understood that the above stated warranty shall not apply if the customer in any way modifies, alters, or misuses Fluidic Systems equipment. This includes the malfunction, damage, or wear caused by the incompatibility of Fluidic Systems equipment with structures, accessories, equipment or materials not supplied by Fluidic Systems.

Materials

Fluidic Systems does not manufacture materials or chemicals. Therefore, it is understood that it is the user's responsibility to be thoroughly familiar with the materials being dispensed and confirm that they present no hazard when used in the intended operating environment and are compatible with the equipment's construction materials and operating pressures.

It is further understood that it is the user's responsibility to be familiar with the hazards of exposure to the various chemicals being dispensed and ensure that all necessary safety precautions applicable to the operation of the equipment and material's exposure are strictly followed. Additionally, the chemicals associated with the equipment's use are properly disposed of in accordance with local, state, and federal laws.

Service

Fluidic Systems maintains a trained service staff that is available for installation, field support, and the training of personnel.
